## Online Discussion on Mitigating Biodiversity impacts

In the context of the project "Development of Renewable Energy Sources while ensuring the environment and social consensus, and conservation of the Natura 2000 Network", the Institute for Sustainable Development of the European Public Law Organization (EPLO) in collaboration with Convergences Greece and with the support of the funding from the Green Fund (Prasino Tameio) had the pleasure to organize an online presentation and discussion on the recent publication on Mitigating biodiversity impacts associated with solar and wind energy development: Guidelines for project developers in collaboration with the **International Union for Conservation of Nature (IUCN)**, and **The Biodiversity Consultancy**.

The online discussion took place on **Thursday, April 22** with the participation of the following distinguished speakers:

**Professor Spyridon Flogaitis**, Director, European Public Law Organization

**Giulia Carbone**, Deputy Director, IUCN Global Business and Biodiversity Programme

**Leon Bennun**, Chief Scientist, The Biodiversity Consultancy

**Spyros Kouvelis**, Director, Institute for Sustainable Development, European Public Law Organization
