An EPLO Career Development Program for Georgian candidates

In 2025 the *European Public Law Organization Regional Branch in South Caucasus* in collaboration with the *ELGS* is launching a **Career Development and Qualification Enhancement Certified Program** for civil servants, students and lecturers of high education institutions, secondary school teachers, political party activists, EU enthusiasts and representatives of various social and professional groups.

The initiative is a timely response of the EPLO to the extensively increasing interest of wider Georgian society in European Union-related matters. In this context, the programs encompass topics such as the Unique Institutional Arrangement of the European Union, Institutional chain and procedures of the EU decision-making, Legislation of the European Union, EU Law-making and EU Judiciary System, Enlargement of the European Union, EU Accession Trajectory and Stages, Institutional and Legal Aspects of the EU Accession Process, etc.

The online, interactive, and practical programs will be offered quarterly. All program participants will be offered a free copy of the second edition of the bilingual (Georgian-English) guidebook of the EPLO Regional Branch “Seven Steps for Comprehending the European Union” released in 2024.
